

Dear Ella Families,

Welcome to the 2020-2021 school year. The school year may look very different, but the one thing that remains constant is our commitment to our Ella Gators. Teachers are excited to meet their new students and have been busy preparing to engage your students in distance learning. It is a priority that all students have what they need in order to be successful with distance learning. Chromebook distribution took place August 6th through August 11th. If your child still needs a Chromebook, please call the main office so that we can prepare a device for your student and contact you with a pick up time. Teachers will be sending home additional items for students after the first day of school, so be prepared for a call from the school relaying a message for a pick up day and time. Please contact the main office or your child's teacher with questions or concerns as they come up. Excellent home/school communication is the key to our students having a positive learning experience.

The Ella Elementary School office will continue to be open during school hours with the addition of new health and safety procedures. Calling ahead to make an appointment with the secretary or attendance clerk is highly recommended. Only one person per family will be able to enter the office at a time. Other visitors will be required to wait outside the office respecting social distancing protocols.

As we begin this year with distance learning, please know how much we appreciate your partnership in educating our Ella Gators.

Sincerely,

Mrs. McAdam

Ella Elementary Principal
